MIXED-USE DEVELOPMENT

Many of our club resorts are mixed-use properties which include combinations of vacation ownership apartments, hotel rooms, privately-owned apartments and retail in the same development. This model presents great synergies and benefits to hoteliers.

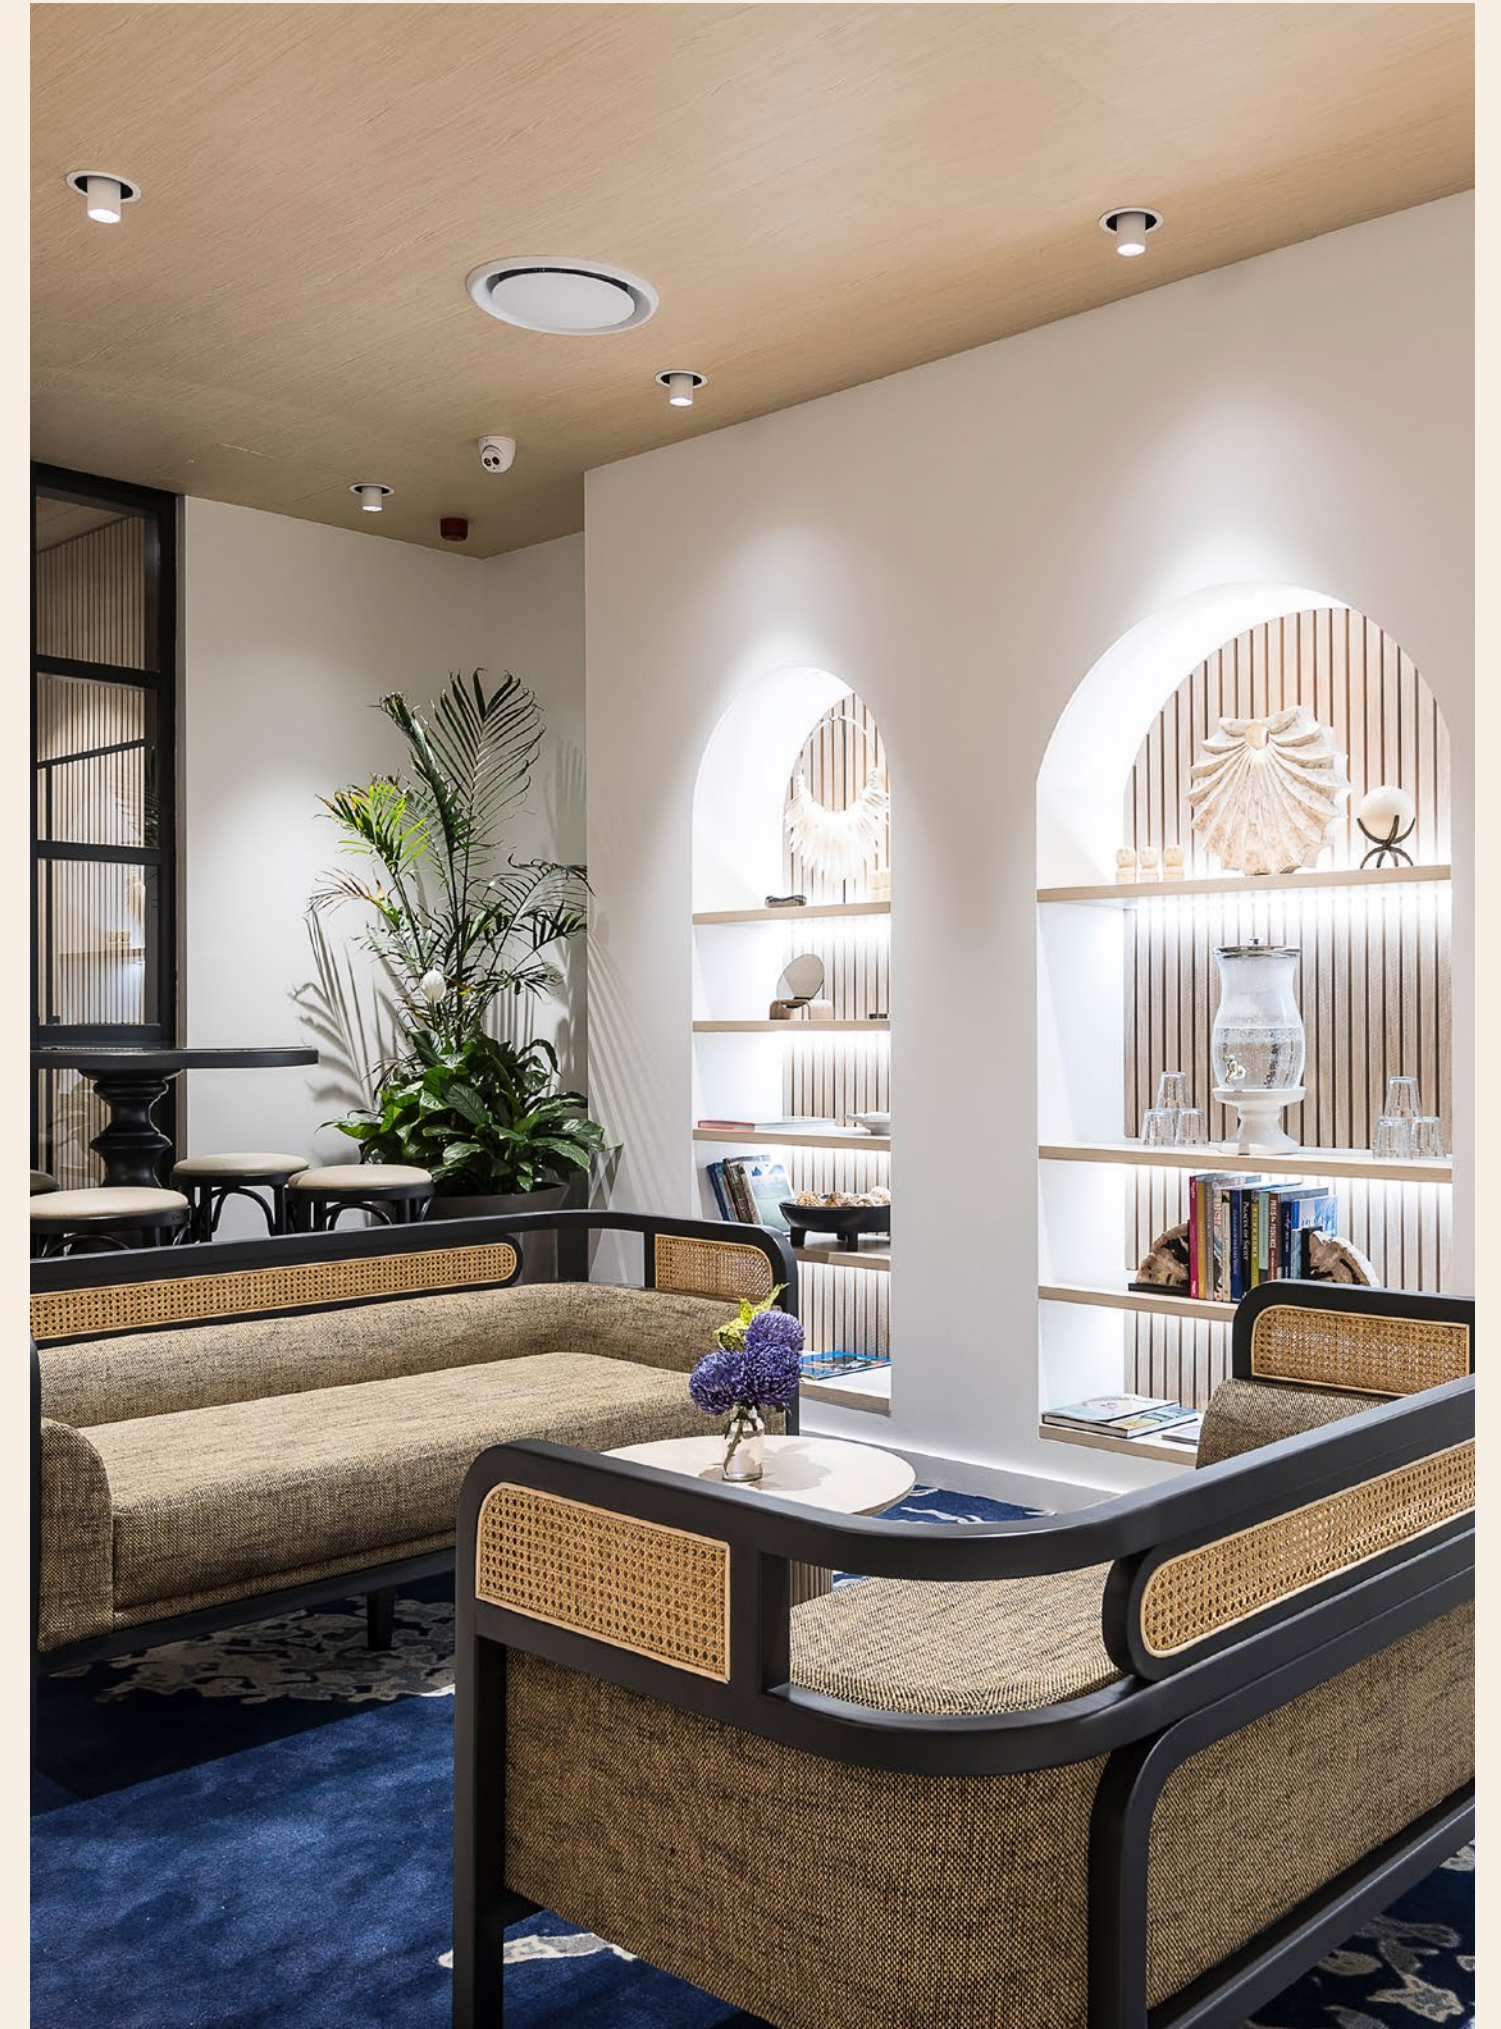

- Club members pay annual fees or levies which contribute to the running of the hotel or resort
- As an obligation to club members, common spaces and club apartments are refurbished on a regular cycle, which has a positive flow-on effect for hotel guests
- Club inventory averages close to 90 per cent occupancy, boosting the profitability of onsite food, beverage and retail outlets
